

ítulo del Proyecto	<b>E-Learning Platform for Medical Informatics to Improve Vocational and ICT Practice (E-MEDIVIP)</b>
Nº de expediente asignado	GA: 2015-1-TR01-KA202-022634
Abstract	<p>The healthcare industry is growing steadily and the software/devices of health informatics are an important part of everyday environment of healthcare workers. An increasing investment in the medical informatics industry to digitize health information has created a strong demand for health informatics workers. Unfortunately, the intensiveness, complexity and amount of health information have presented considerable challenges in adopting information technology to increase the efficiency and enhance the quality of medical services. Innovation of the healthcare industry is therefore highly dependent on skilled people with competencies in Health Informatics. Therefore, it is necessary to train medical staff like secretary, nurse, monitoring technician, radiologist/doctor etc. on practical healthcare IT education in addition to their vocational education.</p> <p>In recent years, in our country, medical informatics-related courses are taught at some vocational schools, high schools, colleges and institutes. However, courses are usually taught on formal training and based on theory. According to various research about medical informatics in Turkey, the educations of medical informatics are extremely inadequate in our country. All these problems are originated from lack of staffs that have sufficient knowledge and competence.</p> <p>In accordance with EU 2020 targets and the requirements mentioned above, E-learning platform for Medical Informatics to improve Vocational and ICT Practice (E-MEDIVIP) is going to design and implement.</p>
Entidad Financiadora	<b>Unión Europea (Comisión Europea)</b>
Convocatoria:	<p><b>Programme:</b> Erasmus+</p> <p><b>Key Action:</b> Cooperation for innovation and the exchange of good practices (KA2)</p> <p><b>Action Type:</b> Strategic Partnerships for vocational education and training (KA202)</p>

Importe de la ayuda	38.127€
Fechas de ejecución del proyecto	01-09-2015 a 31-08-2017
